

Challenging Chatbot Challenge

According to Gartner,

“By 2020, 85% of our engagement with businesses will be done without interacting with another human. Instead, we’ll be using self-service options and chatbots.”

Our research concludes that the future of technology will yield advancements in automation where chatbots will be the norm for user engagement. We challenge any willing attendees to participate and have an active role in this ongoing evolution!

Objectives:

- Develop/create a chatbot.
- Be innovative. We aren’t looking for any specific use case, so feel free to get as creative as you want!
- Bonus points for conversational as well as functional.

Prizes:

- Gartner branded Weekender Bundle’s (4)

If you have any questions, feel free to stop by our table!
